

Develop. Improve. Engage.

Give Continuing Education and Workforce Solutions a call @ 225-216-8239

With a variety of training options to meet busy lifestyles, the BRCC's Corporate and Continuing Education can help you live the life you've always wanted. Whether it's taking your career to the next level with industry-leading corporate training or taking the time to learn a skill you've always wanted, we have the right course at the right time for you.

Corporate and Continuing Education programs focus on helping residents of the greater Baton Rouge area in three areas:

- [Develop](#) work skills to refresh skills, obtain career advancement, transition to a new industry or get the latest in industry-based certifications.
- [Improve](#) as an individual through leisure courses, special seminars on literature and community and guest lecturers making knowledge expansion attainable for all.
- [Engage](#) with others in the community through Lunch & Learns for small business, professional development sessions, CLE workshops and our upcoming Administrative Professionals Conference.

Corporate and Continuing Education students may qualify for financial assistance through the Louisiana Workforce Commission, Veterans Programs and a variety of training grant programs. Many of our training programs meet the qualifications for assistance via the Workforce Investment Act (WIA) and Louisiana Rehabilitation Services programs. Military personnel and their spouses are invited to preview our military programs.
