Memorandum of Understanding
Establishing a 2 + 2 Articulation Agreement Between

BATON ROUGE COMMUNITY COLLEGE
Associate of Science in General Science with an Environmental Management Systems Concentration
AND
LOUISIANA STATE UNIVERSITY
Bachelor of Science in Environmental Management Systems

This memorandum of understanding (MOU) serves as an agreement between Baton Rouge Community College (BRCC) and Louisiana State University (LSU) to facilitate transfer for students desiring to earn a bachelor’s degree upon completion of their associate degree at BRCC.

BRCC students who have completed the Associate of Science in General Science in an Environmental Management Systems Concentration degree program and have subsequently met all transfer requirements and been admitted to LSU with a declared major in Environmental Management Systems in the College of Agriculture will be admitted to the College of Agriculture as a junior in Environmental Management Systems under the catalog of record upon entry. Standard College of Agriculture program admission standards will apply.

LSU will:

1. Deliver curriculum information to BRCC for the Environmental Management Systems degree program.
2. Develop, in conjunction with BRCC, an "Intent to Participate" agreement to expedite program progression.
3. Encourage and support students to complete the Associate of Science in General Science with an Environmental Management Concentration prior to progressing to the Bachelor of Science program at LSU.
4. Provide advisors to BRCC students pursuing the Associate of Science in General Science who declare their intent to pursue the Bachelor of Science in Environmental Management Systems at LSU. Advisors will be available by telephone and online consultation, as well as by appointment at BRCC or LSU. Upon admission to LSU students will be assigned a faculty advisor by the LSU College of Agriculture.
5. Communicate any and all degree program changes to BRCC.
6. Recognize the existence of this 2+2 program in the general catalog under the program description for Environmental Management Systems.

11/23/11
BRCC will:

1. Maintain files related to the progression of students in this program.
2. Encourage students to pursue the 2+2 program and to progress in a timely manner and select coursework which will fulfill general education requirements at LSU and the general education courses specifically required in the LSU Environmental Management Systems degree program.
3. Provide LSU with participating student transcripts (student release required) to facilitate the recording of student data at LSU and to allow for timely advising.
4. Develop, in conjunction with LSU, an "Intent to Participate" agreement that will allow seamless record transferability and data sharing in compliance with the Family Educational Rights and Privacy Act (FERPA).
5. Convene each semester with LSU representatives to assess program progress.
6. Communicate degree program changes to LSU.
7. Promote and market the program in the BRCC service area.
8. Recognize the 2+2 program in the BRCC catalog under the program description for Associate of Science in General Science with an Environmental Management systems Concentration.

Additional Information:

This agreement is effective upon signing. Either party may terminate the agreement through a written notice of intent at the end of the semester of notification. Should the agreement be discontinued, students who declared their intent to participate will be allowed to progress through the program and complete according to the terms of the original agreement.

Changes to this agreement may be made at any time, in writing, with a 60 day notice, with the express written agreement of the chief academic officers of each campus.

Both parties will share assessment data and will meet periodically to assess the program.

Attachments indicating the current Associate of Science in General Science with an Environmental Management Systems Concentration at BRCC and the transferability of that degree's credits to a bachelor's degree in Environmental Management Systems Program at Louisiana State University's College of Agriculture are attached and made a part of this agreement.
